

# NFPA 470: 2022 Edition, Chapter 9.3 Hazardous Materials/WMD Operations Mission Specific- Mass Decontamination

Below please find what has been previously approved by the Committee on Accreditation (COA) for this level of certification. This example does not take into consideration “Document Review”, “Portfolio”, or “Other testing methods.”

If your agency selects completing their online Assessment Methodology Matrix (AMM) utilizing these test methods, our Technical Analysts may place your application under a COA meeting consent agenda bypassing the usual COA review.

The spaces identified below with an “X” must be replaced with the appropriate cognitive test item numbers (e.g. Questions 1,4,6,7,9, etc.) or the score sheet numbers under Product, Psychomotor/Process methods as score sheet numbers (e.g.- SS 101, 202, and 304, etc.).

	<b>Knowledge-Based Assessments</b>		<b>Performance-Based Assessments</b>	
	(graded after submission)		(graded in real-time as they are performed)	
<b>Section</b>	<b>Cognitive</b> (e.g. Multiple Choice, Short Answer, Discretionary Time with Resources)	<b>Product</b> (e.g., document or develop a budget, proposal, lesson plan)	<b>Psychomotor</b> (Primarily an observable physical task. e.g., don, doff)	<b>Process</b> (Primarily a mental or verbalized task. e.g., inspect)
9.3 Mass Decontamination.				
9.3.1 Perform mass decontamination for ambulatory and nonambulatory victims at a hazardous materials/WMD incident, given a hazardous materials/WMD incident that requires mass decontamination; an assignment in an IAP; scope of the problem; policies and procedures; approved tools, equipment, and PPE; and access to a Hazardous Materials Technician, an allied professional, an emergency response plan, or standard operating procedures, so that under the guidance of a Hazardous Materials Technician, an allied professional, an emergency response plan, or standard operating procedures, a mass decontamination process is selected, set up, implemented, evaluated, and terminated; approved PPE is selected and used; exposures and personnel are protected; safety procedures are followed; hazards are avoided or minimized; personnel, tools, and equipment are decontaminated; and all reports and documentation of mass decontamination operations are completed.				
<a href="#">9.3.1</a>		<b>X</b>		<b>X</b>

9.3.1 (A) Requisite Knowledge. Types of PPE and the hazards for which they are used; advantages and limitations of operations and methods of mass decontamination; policies and procedures for performing mass decontamination; approved tools, equipment, and PPE for performing mass decontamination; crowd management techniques; and AHJ's mass decontamination team positions, roles, and responsibilities; and requirements for reporting and documenting mass decontamination operations.

9.3.1(A)

**X**

9.3.1 (B) Requisite Skills. Selecting and using PPE; identifying sources of information for determining the correct decontamination method and how to access those resources at a hazardous materials/WMD incident; selecting a mass decontamination method to minimize the hazard; setting up and implementing mass decontamination operations in a safe location; evaluating the effectiveness of the mass decontamination method; and completing required reports and supporting documentation for mass decontamination operations.

9.3.1(B)
